## PROFESSIONAL SUMMARY

I am currently in my third and final year of studying the Bachelor of Computer and Information Sciences Degree at Monash University South Africa. I am also completing a double major in Software Development as well as Computer Networks and Security. I have a passion to learn more about Software Engineering and Development, Business and Management in IT as well as Data Sciences. I have been exploring this through self-study and free short online courses apart from my degree. I have developed multiple teamwork and project managerial skills during my degree, apart from adhering to Monash University's high international standards in my tasks and exams.
